

INCREASING ACCESS TO FAMILY-SUSTAINING WAGES

THROUGH EDUCATIONAL & WORKFORCE PATHWAYS

STATS

1,149 **childcare providers** received professional development training

13,838 **children** served by partner organizations

963 **adults** participated in workforce training programs

SUCCESS STORY

Andrew wanted to provide a better life for his daughter. He knew that having a GED would expand his job opportunities. He enrolled in classes at a neighborhood center. Andrew was doing well, but struggled with math. The center helped him schedule evening and weekend tutoring sessions around his work shifts. On his third attempt at the math test, he passed. He proudly brought his family to the graduation ceremony in June. Andrew is now working with a center tutor on his resume to apply to truck driving school.
