

# OUR REGION'S SUPPORT SYSTEM

**We dissect poverty piece by piece. We get to the roots of it, the history, the causes, and the people it affects. Then, we roll up our sleeves and get to work.**

First, we direct funds and effort toward meeting basic human needs, like food, shelter and safety. Then, toward other areas impacted by poverty, like families affected by violence and kids and adults who can't read.

**Every day we can improve the lives of people in need. So we do.**
